Subject: FW: Tip from Maryland regarding an asbestos renovation

Hi, Lorraine:

Per my voice message, here is the tip we receive from HQ about the Wight Bay Condominiums at (b) Coastal Highway (b), Ocean City, MD, 21842. There is concern that asbestos may be released by the renovation activities ongoing at this old Ramada hotel.

It is my understanding that Rich reached out to last week. Would you please let me know if you have any update on this situation. I would appreciate it very much.

Thank you

Fatima El Abdaoui

Subject: RE: Tip from Maryland regarding an asbestos renovation

Good morning, Everett:

Thank you for forwarding the tip you received from (b) (6). We will be sending to MDE who still have a couple NESHAP inspector. I am not sure about MDE having an office in Eastern shore.

Subject: Tip from Maryland regarding an asbestos renovation

Fatima –

I received a call from (b) (6), a resident at the Wight Bay Condominiums at (b) (6) Coastal Highway (b) (6), Ocean City, MD, 21842. Her phone number is (b) (6). Ms. Kittle indicated the building was an old Ramada hotel converted to condos.

Several of the units are undergoing renovations for door and window replacements and outside stucco work. (b) (6) indicated past reports identified asbestos in the interior of the building. 3 to 15% ACM in the wallboard/mud and tile/mastic. She believes there is asbestos in the stucco on the outside of the building but the condo association is not willing to release any information.

She is concerned that proper precautions are not being taken prior to the removal of the doors and windows. No containment inside the units or outside.

(b) (6) said she contacted Ms. Lorraine Anderson –MDE (about a month ago) regarding an earlier renovation but has not received any follow up as to what Maryland found at the site.

During the initial renovation, (b) (6) asked about the workers doing some of the renovation work as they were not protected. The condo association said they used their maintenance workers to undertake the renovation, and that they were not trained in asbestos removal.

(b) (6) stated this next phase of renovation begins tomorrow.

I realize this is late coming to you, but does Maryland have an office on the Eastern shore that could evaluate the jobsite tomorrow?

Thanks.
